

Rancho Bernardo Center (South Education Center)

Join us for the South Education Center's inaugural semester as we begin our first series of classes designed to prepare you to transfer to a four-year university or advance your career with new skills!

The South Education Center delivers essential courses, enrollment and counseling services, and cutting-edge facilities to students in the southern communities of the Palomar Community College District. The Center has been designed as an innovation and technology hub with a focus on STEAM classes (Science, Technology, Engineering, Art and Math). Students interested in transferring to a CSU or UC institution can choose from course clusters that provide a pathway to universities.

The 27-acre site in Rancho Bernardo includes new smart classrooms and high-tech science labs in a 110,000-square-foot three-story building. Here students will have access to a library with sweeping views of North County, a teaching and learning center, student support services, and more. Park for free this summer when you take all of your Palomar College classes at the South Education Center! (Permit valid only at this location.)
