The Southern California Biotechnology Center, hosted by San Diego Miramar College, offers the Biotechnology Employment Skills Training (BEST) workshops several times each year. Each workshop lasts for 4 days and offers a crash course to job seekers and incumbent workers. Participants are expected to have completed college level Chemistry and Biology courses. Topics covered include a basic laboratory skills refresher, mammalian cell culture techniques, ELISA and PCR.

Contact Dr. Sandra Slivka at sslivka@sdccd.edu for information on upcoming sessions, cost and reservations.
