

The **SCBC Wireless Health Certificate** is aimed at training professionals for patient engagement roles using wireless/digital/mobile/connected health. It provides trainees with 32 hours of hands-on technical training and experience in using these technologies in community and clinical outreach, health education, and/or monitoring settings.

Total tuition for the 3-course package: \$3200/person, individual rate; group discount rates available

Policy: Minimum enrollment of 10 registrations per-class, per-day will be required for training fees and discounts to apply.

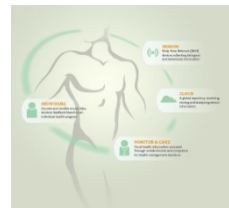

Individual courses also available, contact us for details. Optional corporate packaging:

**What Is Wireless Health?**

An overview of Wireless Health and its uses.

**Introduction to the Wireless Health Ecosystem**
