2012-13 Budget Development Update

- **Uncertain budget environment continues**
 - Governor's proposed budget identifies \$9.2B deficit
 - Deficit addressed by combination of deep program cuts and increased state revenue through tax increase
 - Governor proposes 0.5% sales tax increase and personal income tax increase to those who make over \$250K
 - These revenues would be used to pay down debt (would not be used to increase funding to state programs)
 - There are competing proposals to raise revenues
 - If Governor's proposal is not passed by voters this would result in an additional 5.56% reduction to SDCCD (\$9.1M)
 - The timing of the November tax initiative makes planning for 2012-13 difficult at best

What does this mean for Miramar?

- We are planning a “flat” budget for 2012-13
- Basic FTEF and Discretionary budgeting will be the same as this year’s budget
- Because we will not know the outcome of the tax initiative until after the November election there is a possibility of significant reductions that will need to be made in the Spring of 2013
